keller high marching band

The band really came into its own this year with a new band hall, a new band director, new instruments, and a fresh new outlook. Our enthusiasm has carried us to political rallies, beauty pageants, concerts, and contests. The 72-73 marching routines were varied and exciting for those of us who had never marched "6 to 5" or who had never seen some of the unique visual effects Mr. Phillips introduced.

Band Officers—L. to R.—Connie Weary, Melissa Miller, Denise Stalkup, Carol Favor, Carol Jarvis, Jim Harris—President.

cheerleaders

Being a cheerleader is more than jumping around and yelling for the school. Many hours are spent practicing, making all the signs, preparing pep rallies, and trying to think of ideas to make our school a better place. There are times when it is hard to keep smiling, but people can truly make things seem brighter by trying to help us when we need it. We attended E.T.S.U. during the summer. We came home with five superior ribbons and were nominated for the Coke Cola Award. We are proud we have been cheerleaders because we know we had a lot of great times that we will always remember.

student council

The 72-73 Student Council is struggling to represent the Keller School Body. New ideas, steps toward improving relations between students and the faculty, and entertainment are just a few of the Student Council's obligations. Although there are lost transactions along the way, the Student Council works hard and is rewarded in many ways.

This year the rodeo club traveled all over North Texas. We won some and lost some, but we took it all in stride. Our rodeoing is a combination of dues, entry fees, time, traveling and luck. We represent our school to the best of our ability, and we do it week after week throughout the school year. Whether we are in the arena, on the field, or court, or track we are all a team competing for Keller High School, and we, the rodeo club are proud of that.

national honor society

This year the Beta Club members voted to change to the National Honor Society. It is sponsored by the National Association of Secondary-School Principles, and is felt to be one of the highest honor societies open to high school students. The National Honor Society will take time to get going, but the members are looking forward to an active and important time next year.

The 1972-73 Indianettes worked very hard to achieve a good standing in Keller High. We competed at the University of Houston and won a second place trophy. The officers competed at Sam Houston University and brought home second and third place ribbons. Football season was brightened by our performances with the band. Then, the officers composed many routines and organized a Doll Shoppe for the "Our Best to You" at the Tarrant County Convention Center. We came home with an honorable mention trophy. We also performed the Doll Shoppe for the Miss Haltom-Richland pageant. Our year was ended by satisfying our audiences, because by doing this the Drill Team has accomplished its goal.

As Seniors at Keller in 72-73 we have been through the chaos of a rapidly growing, but slowly changing school. But now, we realize this is it! -and we think—wow am I glad it's over. In future years we can look back and see the results of activities that we started. Many voices of different opinions started here and will be administered eventually when everyone's mind opens up to the very large school that will be Keller High. Our class is a good slice of the confused growth, and we are glad to have been a part of it all.

As our Junior year is ending, we feel that in our third year at K.H.S. we accomplished many things. We've now come closer to realizing our life's goals, and many of us are beginning seriously to make preparations for our future. The past year has been a year of hard work, but from our experiences we have become more self-disciplined.

Our Junior year has been, above all, a very busy and active year. We've steadily worked to make money for the Jr.-Sr. banquet, and there have been many organizations and activities we participated in. Also, we really made our place in athletics, many of us for the first time taking a place in a starting lineup in one sport or another.

In the future we will be able to look back and remember our Junior year as being one of the most enjoyable years in high school. Now, however, we are beginning to see that the year we've always looked forward to will soon be Here. The Senior year is now in our grasp.

As Sophomores, nothing important has happened to us at all! It's almost as if we've lost sight of our goals. We are stranded in time and we can't see that we are moving at all. The year has been a typical sophomore year. Nothing and no one has changed since our Freshman year. We are eagerly awaiting next year when we will be Juniors.

Being a Freshman is something really unique. Even though we find ourselves surrounded by new and different challenges, we try to keep our cool. Being a Freshman means—lots of homework! We fight our way through the halls, and get pushed around a whole lot. But we have our good times; going to the first high school dance, and really participating in the sports that we ordinarily just watched being played. We look forward to our turn as the leaders.

so helpful in so many different ways that we, the annual staff, cannot express our thanks. Not only us but all of Keller High recognizes the importance of these two people. Mrs. McDonald is a counselor, secretary, friend, and a nurse to all of us. Mrs. Hendricks has only been here one year and she puts out the Wigwam, is a Junior sponsor, a fantastic teacher, and of course is our Annual Sponsor, who is a dear friend.

The Keller Indians had a 4-6 record this year. It took a lot of hard work building a new team with a lot of young players and new coaches. We feel like we accomplished a great deal coming out of a slump, and are looking forward to an even better year next year.

Bounce, bounce, bounce was the sound heard by the crowd at Keller High School gymnasium as the 1972-73 Girls' Varsity appeared on the court. Happy and sad faces were found on the girls during this season. The happy faces mean victory, and the sadness was because of defeat. Even though they did not win their district, they had great success in tournaments by bringing home three trophies.

Our basketball team did not have the most impressive record in our district, but our spirit, drive and determination made up for it. We were beaten more than we won, but never once were we defeated. There are two reasons for this. One is the outstanding athletes and coaches we had, but the main factor was the continued spirit and encouragement shown by the student body which inspired us to work and try harder.

boys track

This year a handful of people, the coaches were able to head off before they sprinted out when track was mentioned, turned into a group of dedicated young men and represented Keller in the area of track and field. They hardly ever won anything, but they learned a lot. The competition made them better and the running helped put a better pair of lungs and a couple of new running muscles on their legs. Even though they knew their team was out numbered in every event and the coaches did too, everyone showed up every Saturday morning to run. Mainly because there was the sound of a medal whispering in their ear to make them think they could win.

girls track

Running track requires a lot of time and effort. This year the girls track team was small but dedicated. Their district meet was held at Henrietta.

baseball 72-73

Baseball had a very successful year. Keller won the south zone championship which includes Lake Worth, Northwest, and Keller. We defeated Bowie in the first game of District playoff 4-3. We lost the second game 5-2 and lost 10-4 in the deciding game.

CONSIDER THESE THOUGHTS BY RALPH WALDO EMERSON

o laugh often and much; to win the respect of intelligent people and the affection of children; to earn the appreciation of honest critics and endure the betrayal of false friends; to appreciate beauty, to find the best in others; to leave the world a bit better, whether by a healthy child, a garden patch or a redeemed social condition; to know even one life has breathed easier because you lived. This is to have succeeded.
